

## It's time for the Big Reveal!

Presenting.....Winona's 2022 Snowshoe Season

Winter is not a season to dread, it is a season to embrace. 2022 will be the best snowshoe season Winona has ever offered. If you have yet to experience a Winona Winter, wait no longer.

### 1/9/2022 - The Norway5K

This season "kick off" is a great first race of the season. Built in summer 2021, the Norway trail will become an instant favorite. With scenic overlooks, massive stone walls, and rolling terrain, this single track route is a perfect "first race" of the season. Treat it as a training run for the upcoming Stone Wall. All single track, no major climbs.

### 1/24/2022 - The Stone Wall 5K/10K

Coined as the NorthEast's signature snowshoe event, The Stone Wall is back to full capacity this season. With a mass start of well over 100 snowshoers, embarking on one of the most relentless snowshoe courses anywhere in the world, this unforgettable race is certain to bring great joy and relentless pain to you all. Best quote to date "It's like death by a thousand cuts". While I encourage all to experience the 10K course, (closer to 11K) the 5K may be the best option for many. A small change to the 10K course this year will add an element of surprise. Start building your stamina now.

### 2/20/22 - The Orange Course

One of the favorite marathon courses of 2021, the Orange offers a great mix of trails and terrain, finishing on everyone's favorite, Jimmy's Jaunt. Distance of about 3.65 miles, this event closed out in less than an hour last year. No limit this year, let's pack this course!

### 12/25 - 2/20 The Winona Snowshoe Marathon

The Winona Snowshoe Marathon is back by popular demand. Spend the day, or the winter, snowshoeing 26.2 miles and 6 different courses across Winona Forest. Sign up for the marathon and you are automatically registered for Winona's 3 live snowshoe race events. Complete the 3 additional well marked courses on your own. All marathon finisher's will receive the prestigious 2022 Winona Snowshoe Marathon finisher's medal.

Registration will open for all events on RunReg in December. Additional information will become available on Winona Forest's website and facebook page as winter nears.

While my passion is snowshoe racing, Winona's trails are expertly groomed and maintained all winter for users to come and enjoy, whether you ski or fat bike. We offer resort quality nordic trails, and are known to be the mecca of fat biking. Whatever your skill level and experience, there are options suitable for you.
