Woodlawn Cemetery began in 1820 as a Presbyterian Burying Ground.

The existing grave markers in Woodlawn Cemetery read like a Who's Who in Sandy Creek/Lacona history showcasing the contributions of many people who came before us.

Cemeteries have been compared to open-air museums. Accordingly, an observant stroll through a graveyard provides information on past families, communities, and belief systems.

This tour highlights the lives of our citizens through gravestones.

Please be respectful during your visit and take only photographs, not rubbings (which damage fragile inscriptions).

This cemetery is the resting place of over 400 brave men who served their country in war.
